Experience :

The Iron Yard; Atlanta, Georgia   **Sep '15 - Dec '15**

- 12 week immersive course learning Ruby and Rails that teaches you how to think like a Programmer and prepare you to enter the feild as a junior developer. This is done by building applications solo, and in teamwork environments. The course ends with a 3 week team project to create a app that addresses a potential customer need and also to showcase your skills gained over the 12 weeks.

Walmart inc Assistant Manager   **Sep '00 - Jun '15**

- Responsibility for ensuring customer service, supervising employees, enforcing company regulations, and taking care of various administrative tasks. Individuals in managerial careers process payroll, schedule employees, delegate daily assignments, implement promotional campaigns, track inventories, analyze and report sales data, and coordinate merchandise shipments. Managers also carry out disciplinary actions when necessary and serve as primary enforcers of loss prevention tactics.

Education :

Auburn University of Montgomery -N/A   **Aug '97 - Jan '03**

Prattville High School   **Aug '93 - Jun '97**
